Leadership: Cross-functional Collaboration, Design Leadership, Mentoring, Design Reviews, Product Strategy, Agile, Workshop Facilitation.

PROFESSIONAL EXPERIENCE

Senior Product Designer Sep 2025 — Present
[Linkit360](#) — SaaS & Mobile Products

- Lead end-to-end design across multiple SaaS products serving thousands of users and generating recurring subscription revenue; partner with PMs and engineering leads to shape product roadmap and align stakeholders on priorities
- Spearheaded user research and design for **Lulladreams**, earning **Top 3 at MEFFYS Award 2026 in Barcelona** — international recognition for mobile services innovation
- Architected a scalable **design system (40+ components)** in Figma and React/Storybook adopted across 5+ product teams; **reduced UI development time by ~45%**
- Drove adoption of an **AI-assisted design workflow** (Claude, Gemini, Figma Make) across the team, compressing iteration cycles from weeks to days and enabling parallel exploration of multiple directions
- Mentor 2 junior designers through weekly reviews, design thinking coaching, and design system contribution workflows
- Lead SaaS motion design in After Effects and Lottie across product portfolio, elevating product feel from functional to premium

UI Engineer (Design + Frontend Hybrid) Sep 2023 — Aug 2025
[Linkit360](#)

- Owned a hybrid design + engineering role bridging design intent and code; collaborated closely with product managers and backend engineers to ship production-ready UI
- Led design and frontend implementation of **Fantasy Eleven**, a PWA fantasy football platform now generating active contest revenue with 300% peak traffic on match days
- Produced motion explainer videos that accelerated B2B client onboarding by ~3x compared to written documentation
- Maintained component library and design tokens to ensure UI consistency across product portfolio

Freelance Product & UI/UX Designer Jan 2022 — Present
[Independent / Selected Clients](#)

- Lead freelance design engagements across health tech, fintech, and SaaS; own full process from stakeholder interviews and research to delivery
- Designed **Auto Health Care** for **Keluarga Sehat Hospital Group (Pati)**, a 12+ module enterprise dashboard; led stakeholder interviews across admin, doctor, and nurse roles, **reducing missed follow-ups by 65%** and staff onboarding from 2 weeks to 2 days
- Delivered **Criptofy** premium crypto trading landing page (2-week timeline) and self-initiated **Q-Fast** portfolio project demonstrating end-to-end design, motion, and code
